Our school closed the last day of November. Teacher and pupils acquitted themselves well. Prof. J. W. Taulbee is a good school teacher. He gave the children several nice presents at the close of school.

A spirit of penny wisdom and pound foolishness—send your child to school without books.

Henry Clay Lacy, who taught the Daysboro school, closed out Friday. Clay has taught a successful school and will probably enter school again the first of the year to further prepare himself for the coming duties of the school room.

It is a strange fact, indeed, that men who profess to be Christians will tolerate the whisky peddler and moonshiner by buying their abominable swill, which they imbibe in their system, defiling their souls and defaming their home and country. Such men are found in Christian Morgan, who rise up early in the morning and go in search of it.

The Maytown Mill Co. have their corn mill in full blast and are doing good work.

We are glad to report the sick of our town all convalescing, except J. C. Swango, who is very sick.

NED.

Foreign Newspapers.

Sometime since we received a bunch of foreign newspapers, among them Crockett's Penny Mail, published at Grahamstown, Cape Colony; the North Otago Times, published at Oamaru, Otago, New Zealand, and the Evening Bulletin, published at Honolulu, Hawaiian Islands. Not having any rich relations or hobo kinspeople in these places that we knew of we were at a loss to understand who our friend could be, until we got a tip and found that the Chamberlain Medicine Co. had kindly sent them to us. We noted in looking over the papers that this company advertises in those papers just as liberally as in those of America, and we wondered how it is that some people live a lifetime before they realize the importance of judicious advertising. There is meat in this suggestion for every merchant who will take a hint from the Chamberlain company, and no paper in Eastern Kentucky offers greater advantages than THE HERALD. Home merchants and those in towns not over 100 miles away will find it a money producer for them.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75 cents per bottle.

Japanese Oil is said to be the most wonderful liniment for external application that scientific chemists have yet been able to compound. Hundreds and thousands testify to this, as it has saved both life and expense. Sold at this office at 50 cents a bottle. Try it, as it is a household necessity and always "a friend in need."

I wish to call the attention of my friends to my fall and winter stock of cape and dress goods, kid gloves, hosiery, caps, Tam-o'-shanters, sailors in all styles, walking hats, and in fact hats to go all gals.

The daily program of recitation will be changed January 1st, 1896.

Classes in shorthand and typewriting will begin just after the holidays.

School will be dismissed for the Christmas recess on Friday the 20th inst.

Nearly every mail brings news of persons who will enter school just after the holidays.

The work will begin January 1, 1896. Every pupil should be here ready to enroll on that day.

S. M. Nickell, one of the graduates last June, will be one of the assistant teachers after Christmas.

G. C. Williams, of West Bend, Ky., will teach ornamental and plain drawing at the Academy, beginning January 1st.

The two societies—Haut et Bon and Utile Dulci—will give an open session entertainment on Friday afternoon, the 20th inst.

E. E. Atkinson is spending a few weeks at his home in Stanton, recording some cases for Attorney J. D. Atkinson. He will return here about the 20th inst.

All pupils from a distance must board at the Academy Home. The management of the school will not allow pupils to board in private families in town, unless with relatives. Experience has taught that all pupils do the most satisfactory work when boarding with the teachers at the Home.

A conveyance will be sent to Torrent station on Monday, December the 30th, to bring pupils to the Academy the following Tuesday. All who want to come that way should write to the principal and be at Torrent Monday night the 30th inst. A conveyance will also be sent to Rothwell station, if pupils coming that way will notify the principal.

ACADEMITE.

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cold." Mr. J. M. Hatcher says: "For three years I have used Chamberlain's Cough Remedy in my family and its results have always been satisfactory." For sale by John M. Rose.

Glasgow Times: Fellow Democrats, kick and cuss as much as you darned please. Kick high and cuss loud. Take off the bridle that you may use both ends to a better advantage. Democracy has nothing to fear from you. "The barking dog never bites," and the Democrat who expresses his dissatisfaction with only a blank line between the first letter and the last will be at the polls early and stay late at the next election. It's the gentleman with the knife up his sleeve, the smile on his lip, and black treachery in his heart who is to be feared.

Mrs. Lou Day is just now in receipt of her new fall and winter stock of hats, bonnets, trimmed and untrimmed sailors, cloaks, dress goods, notions, etc., etc., to which she invites the attention of the ladies of this section. She also keeps a full line of fancy and staple groceries, which will be sold for cash or country produce, and at the lowest living prices.

A mind reader at Ironton, having demonstrated to a party of ladies and gentlemen his ability to read a newspaper through two thicknesses of a horse-blanket, a couple of the girls left the room with the remark that they wasn't going to stay there any longer with nothing on but their thin calico dresses.—Exchange

Lost.—On Friday night, Nov. 22, between Maytown and Hazel Green, a new light colored nickel-tipped buggy whip and a brown undressed kid glove. A reasonable reward will be paid for the return of either or both articles to this office.

Even Turkish women have caught the fever of feminine emancipation. A woman's newspaper has been established at Constantinople as the first step in the movement.

To my patrons in this and Morgan county: I am in need of some money just at present—need it badly—and will be obliged if you will come in and pay your accounts, or part on them.

Respectfully,

A. C. NICKELL, M. D.

The Baltic canal is considered too much exposed to attack at its North Sea entrance. So two strong forts are to be built to defend the approach near Hamburg.

W. M. H. CORD, Principal.
December 12, 1895.

Born, to the wife of Ellis Johnson, Tuesday morning, Dec. 10th, a girl. Dr. John Taulbee is therefore now a grandpa, and he says it is just Democratic luck—a female and can't vote. This continued increase of females to the Democratic families and boy babies to the Republican ranks reminds one of the story Charley Andre tells about a Dutchman, formerly a Sunday school scholar, who had been for 20 years in a logging camp. He returned to his old home, and in an address to the people of the school asked, among other things, that they sing an old familiar hymn. Scratching his head awhile he said he had it, and mixing his logging lingo and religion he exclaimed, "Don't it beat h— how Jesus loves me."

Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by John M. Rose.

The grand jury of the Morgan circuit court last week made its final adjournment. Sixty two indictments were made, the most important of which were as follows: One for willful murder, one for cutting and wounding; two for obtaining goods under false pretense; about thirty-five for selling spirituous liquors in quantities less than ten gallons, of which ten were against one man, and the remainder for carrying concealed deadly weapons, breach of the peace and disturbing public worship.

At the beginning of this century a formal dinner lasted three or four hours and included eighteen to twenty courses. Today the best private dinner lasts usually an hour, and never over an hour and a half. The best remedy for a good appetite is a box of Ramon's Tonic Liver Pills, which are also a cure for disordered stomach, biliousness and indigestion, while, at the same time, stimulating both the appetite and the digestive capacity for food. Ask your druggist for a trial dose.

Born, to the wife of Green Taulbee, of Grassy, Sunday morning, twin boys, Dr. John A. Taulbee officiating as prime minister. Two more voters for the Republican party when they get old enough.
